The ULTRA Solution

Introducing a new addition to our Combo Solutions: Solution Ultra. This is our most versatile and user-friendly arm and platform combination yet! We combined our popular AA360 Lift & Lock articulating arm with our new PL217 Switch-n-Click platform.

ULTRA Flexible | Adaptable | Convertible

The Switch-n-Click mousing platform not only swivels and tilts independently it can be placed at two different heights and three different positions to meet the individual needs of each user.

Mouse in Line

Mouse can be positioned in direct line with the keyboard at either Mouse Above height or platform height.

Mouse Over

Mouse can be positioned over the 10-key to decrease reach

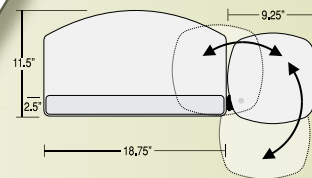

Mouse Forward

Mouse can be positioned closer to the body for improved ergonomic comfort at either Mouse Above height or platform height.

Click and Go! Introducing the Switch-n-Click Mousing Platform

Our new mounting hardware allows for easy repositioning of the mouse from left to right side of the platform – no tools required!

The Solution Ultra is the ideal solution for multiple user workstations.

Solution ULTRA

AA360 - Articulating Arm

21" glide track
Lift and Lock 7" height adjustment
(2.5" above and 4.5" below track)
+/- 15° tilt adjustment

Dual Swivel

Need a little more flexibility with your keyboard? Our Dual Swivel option adds a pivot joint where the platform meets the arm. Ideal for 90° worksurfaces.

Dial-A-Tilt

Our Lift & Lock Dial-A-Tilt articulating arm is perfect for those who need a precise tilt adjustment and accurate height placement.

Positive Tilt Lock-out

This option prevents the user from placing the platform in a potentially harmful positive tilt position.

» Shown with PL045 platform

Work at the Height of Efficiency

Our Dual Sit-Stand Arms are ideal where an extra-sturdy adjustable arm is needed for heavy-use typing or areas where the user switches between sitting and standing positions frequently. They also allow for increased height adjustment. Dual Sit-Stand Arms are well-suited for height adjustable tables and other secondary work surfaces.

PL045 Dual Arm Platform

For use only with AA400 and AA500 Dual Sit-Stand Arms

27" platform drilled specifically for use with AA400 and AA500

Includes detachable palm rest

Flat Screen Monitor Arms

Experience ELITE performance with our new MRFS-ELITE flat screen monitor arm. This new lift-and-pivot technology allows the user to effortlessly position the height of the monitor without handles or tools. The 24" arm will allow users not only extended reach but also the ability to easily fold back the arm when not in use.

- Lift-and-pivot motion technology allows for smooth easy-touch height adjustment
- Arm extends/retracts monitor up to 24"
- 13" height range
- Arm can be mounted to the pole at any height
- Monitor tilts +5/-75° forward and back, rotates 90° landscape to portrait
- Tilt adjustment range allows monitor to be placed into a position that allows for tablet PC use
- Internal cable management routes cables neatly under arm
- Weight capacity 5-20 lbs
- Includes both Desk Mount and Grommet Mount
- 13" pole
- VESA Compatible

ESI Ergonomic Solutions
The Shape of Productivity

MRFS-ELITE Flat Screen Monitor Arm

Supports one monitor

Load capacity: 5 - 20 lbs.

Internal cable management system

13" pole

Arm extends/retracts up to 24"

Monitor tilts +5/-75°

Allows for 90° rotation from
landscape to portrait

Includes both Desk Mount and Grommet Mount:

- Desk Mount clamps to surfaces
1/2 - 1 7/8" thick
- Grommet Mount through holes
5/16-2" wide and up to 2-1/2" thick
- VESA Compatible

Effortless Adjustment

The MRFS-ELITE features lift-and-pivot motion technology which allows the monitor to be re-positioned with smooth effortless movement.

LIST PRICE

Call

Built-in Cable Management

Cables are guided along the underside of the arm for a clutter-free work area

VESA Compatible

VESA 75 mm and 100 mm compatible. Simply match up the hole pattern on the arm to the back of the monitor

ELITE Performance

Because the ELITE is so easy to position (no tools or handles required) it is a great solution in situations where multiple users occupy the same workspace. The 13" vertical range meets the ergonomic requirements of 9 out of 10 adults.

The sleek look of this arm compliments any workstation design.

Choose Your Solution

ESI Ergonomic Solutions' easy-glide monitor arm puts your flat screen right where you need it. Whether you have one panel or six, we have a space-saving monitor arm for you. Available in Grommet Mount or Clamp Mount, you can choose the solution that works best for your specific needs. At ESI Ergonomic Solutions, it's all about flexibility.

Features

- Quick and easy adjustment
- Made of high-quality aluminum alloy
- The sturdy main frame moves smoothly, even under a heavy load
- Monitor easily rotates from landscape to portrait
- Available in grommet mount or clamp mount
- Built-in cord management keeps cables out of your way
- Arm extends 24" (621.5 mm) from where it is mounted
- Arm can fold up to 5" (133 mm) to save space
- Easy lever height adjustment makes changing monitor height quick and easy**
- Height adjusts from 3" to 20" (80 mm – 500 mm)
- Load capacity up to 17.5 lbs. (8 kg) per mounting arm
- Conforms to VESA 75 mm or VESA 100 mm

Mounting Flexibility

Free up valuable space with our new slatwall and wall mount monitor arms. Whether they are used in a workstation, retail sales area, healthcare environment or an area where a small footprint exists, these arms allow functional viewing of flat screen monitors. The sleek, compact design compliments any environment. Simply choose your mount - wall or slatwall.

Easy Positioning

Arm swings 180° from left to right. Monitor swivels 270° and adjusts easily from landscape to portrait.

Slatwall Mount

Mount adjusts to fit any slat or rail in widths of .75" - 2.75". A minimum groove depth of approximately 3/16" (4.4mm) is needed for mounting.

Wall Mount - Easy Installation

The 2-piece wall mount is designed for quick and easy installation. The mounting plate can be mounted to the wall independently of the rest of the arm. When the wall plate is securely installed, the rest of the arm can then be attached by sliding the connector into the mounting pate.

MRFS-SLAT Slat Wall/Rail Mount Monitor Arm

Adjustable clamp fits most slat wall and slat rails

Corners

Expand your Worksurface

Corner Solutions are designed to convert an otherwise unusable 90° corner into viable workspace. They also allow for appropriate positioning of the monitor and proper ergonomic placement of the keyboard and mouse. All Corner Solutions are pre-drilled with holes positioned for easy installation of our Articulating Arm and Platform combinations.

Corner Diagonals accommodate surfaces with widths between 1.5" – 2.5". Spacers (included) assure a secure fit.

1.5" or 2.5"

Footrests & Desk Risers

Footrests increase comfort and decrease fatigue by redistributing body weight for healthier positioning of the spine and legs. Desk risers allow you to set the height of your worksurface for proper ergonomic positioning. Used together, these accessories can provide improved comfort and enhanced ergonomics.

Terms, Conditions & Policies

Pricing and Freight Terms

ESI Ergonomic Solutions reserves the right to revise all prices and freight terms, at any time, without notice.

Custom Order Fees

Track Cutting Fee: Add Call net

Change in platform depth: Add \$12.50 net

Payment & Credit Terms

We accept corporate checks, Visa, MasterCard, and American Express. Terms are net 30 upon credit approval. Prior to account approval, payment must be made in full before the order will be shipped. In the event an account is past due, outstanding shipments may be withheld until the account returns to good standing. We reserve the right to cancel a customer's account due to a history of late payment. Prepayment of 50% is required for orders over \$10,000 - contact Customer Service for details.

Shipping & Drop Shipping

Most orders ship within 48 hours from receipt of Purchase Order. Packages should be inspected upon receipt and any shortages or damages must be conveyed within five (5) business days of deliv-

ery. We are not responsible for damages or shortages occurring after delivery. Additional shipping charges will apply for expedited shipping services. We are happy to drop ship to any customer within the 48 contiguous United States at no additional charge.

For orders under Call, a \$9.99 flat rate shipping fee will be charged.

Warranty

Lifetime warranty on articulating arms and keyboard platforms. Two year warranty on Palm Rests. Five year warranty on CPU Carts, CPU Holders, Flat Screen Monitor Arms, Footrests, and Printer Carts. In our continued effort to provide complete ergonomic solutions to our customers, it is our commitment to stand behind any product, whether manufactured by or for ESI Ergonomic Solutions.

Returns

Qualifying merchandise may be returned to us for credit or replacement. Please call Customer Service at 800.833.3746 to obtain approval and a Return Authorization (RA) Number. The assigned RA number and original P.O. number must appear on all returned

packages. A 25% restocking fee will apply to all non-warranty returns. All items must be returned in undamaged, re-sellable condition and in original packaging and shipped at the customer's expense to:

ESI ERGONOMIC SOLUTIONS

ATTN: RETURNS DEPT

250 S MULBERRY, SUITE 105

MESA, AZ 85202

Products must be returned within 60 days of receipt.

After your packages have been inspected and approved, your account will be credited appropriately or a replacement will be sent if requested. No credit will be issued for damaged or unauthorized product returns.

Ergonomic Solutions™

The Shape of Productivity

Environmentally Sensible

At ESI Ergonomic Solutions, we place a high priority on environmental concerns and are continuously working to recycle, reuse and refurbish our products. Our corporate office's recycling program includes office paper, newspaper, magazines, catalogs, phone books, plastic, cardboard, glass, and aluminum.

Additionally, we pledge to:

- Comply with all environmental laws by meeting or exceeding established minimum standards
- Continuously improve product design, manufacturing practices and procedures for use in the most sensible way to protect our ecological structure
- Strive to design working environments which facilitate efficiency, safety and comfort for the user
- Conserve natural resources in order to preserve our ecological environment

We believe that protecting Earth's delicate ecological structure is not only a sound business policy – it's good common sense.
