Conference Table Solutions

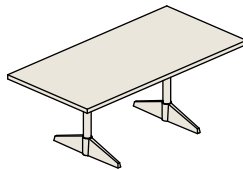

When it's time to outfit your office for conferencing, National gives you more ideas than you can shake a laser pointer at. Choose from among numerous tabletop shapes and sizes, which can be arranged to accommodate any number of people. Pump up the poshness with rich veneer or opt for the durability of a handsome high-pressure laminate palette to match your special design scheme. Add a discriminating touch with your choice of rims and ensure the sleekest appearance. Optional wire management fulfills your technology requests.

WaveWorks® Table Solutions

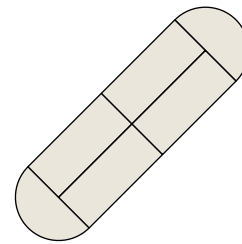

WaveWorks style, adaptability, and function meets all your conferencing/training needs by offering configurations limited only by your imagination. Whether it's a meeting for two or two dozen, WaveWorks' versatile and stylish top shapes along with a variety of sizes offers exceptional flexibility and reconfigurability.

WaveWorks offers a vast array of finishes and laminates, including patterned, solid color and wood grain choices, as well as a customer specified laminate program. The Softened, Reed and Cove rim profiles offer stylish veneer options, or choose the Softened PVC or Reed PVC rim profiles for functional, long lasting durability. Table tops can be supported by a variety of static or mobile bases offering versatility and flexibility to your meeting or training environment.

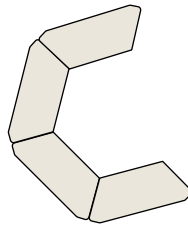

When electrical and data are necessary for your training session, National's Intercooler Table Solution can easily be installed on your WaveWorks tables. This technology solution brings electrical outlets and data port availability to the worksurface linking electrical from table to table. Wire managers and wire covers facilitate easy installation and convenient cord management. WaveWork's tables are now "powered up".

Kite® Table Solutions

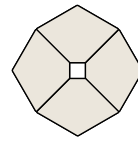

Kite's the unique, free-wheeling training and conferencing solution. A quick-folding design and heavy-duty locking casters make it easy to handle setup or takedown. Tables nest for space-saving storage and can be transported while in folded position, with no dolly.

Kite makes unique configurations easy. Connect the four table shapes—Kite, Box, Fan and Dragon – to suit your ever changing needs. Work ready thermofoil wrapped surfaces feature a smooth, seamless finish. Smart carts make presentations smooth sailing. Just roll in place and your meeting requirements are complete.

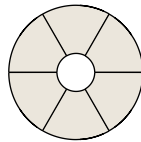

When electrical and data are necessary for your training session, National's Intercoupler Table Solution can easily be installed on your Kite tables. This technology solution brings electrical outlets and data port availability to the worksurface linking electrical from table to table. Wire managers and wire covers facilitate easy installation and convenient cord management. Powering up your Kite tables has never been easier.
