WaveWorks™

Waveworks™

Because every office is different.

You have a vision of the perfect work space, an office as unique as you and the people who will share it. Whatever your size or your budget, here is a palette that empowers you to create what you imagine, in a way that no one else ever could.

Make a perk out of where you work.

Do your people work closely together? Waveworks can inspire teaming with modular connectivity that makes collaboration easier, more natural. If keeping things organized is high on your list, you'll love the many filing options. And when you need places to conceal the clutter, a multitude of storage options may even gain you the admiration of the cleaning staff.

Waveworks gives you everything you need to ergonomically knit your monitor, keyboard, and mouse, so computer operators keep humming. Modesty and privacy panels let you reinforce comfort zones, while slat walls and tackboards offer added utility. And scads of little efficiency-enhancers, from center drawers to accessory trays, spell added productivity

There's more here than greet's the eye.

Some of Waveworks' most impressive features are those you don't see. Like slides that move with super-smooth, ball-bearing precision. Or filing hardware designed for no-tool installation and easy interchangeability. And awkward cables are history when you opt for a cord management solution, with phone and power support installed to your specifications.

When you put it all together, Waveworks represents an exceptional value like no other for a totally integrated furnishing solution. From simple to complex, from small to large, if you can think it, Waveworks lets you build it.

WaveWorks lets your office take shape naturally, almost spontaneously. You get virtually limitless combinations of sizes, shapes, materials, finishes and accessories. Choose showcase-worthy veneers or tough laminates in finely detailed woodgrains, distinctive solids and pleasant abstracts. (A custom option lets you develop even the most eclectic schemes.) Suitable vinyl edging options add resilience to laminate edges. Or dress them up with the same architectural accents used on veneers—fine wood rims in cove, reed, or softened profiles.

What's on the horizon?

Your team is hand-picked. Close-knit. Dynamic.
You want a space that can focus their energies
in an uncommon way. An environment that magnifies
their strengths and lets their ripples travel far
to extend the influence of your business.
Your plans call for WaveWorks.

You don't know what the future holds, but WaveWorks
gives you the flexibility to meet it with confidence,
gaining productive space, affordably, that you can
easily expand to accommodate surges in business.

Mix-it® Platinum Seating, Shenanigans Maneuver

Cordovan Laminate with Wallaby Worksurfaces and Wallaby PVC Softened Edge
Remedy® Seating, Shenanigans Gimmick

So relax and enjoy the moment, because you're small only once. More good things are on the horizon. And WaveWorks is the perfect companion for a successful voyage.

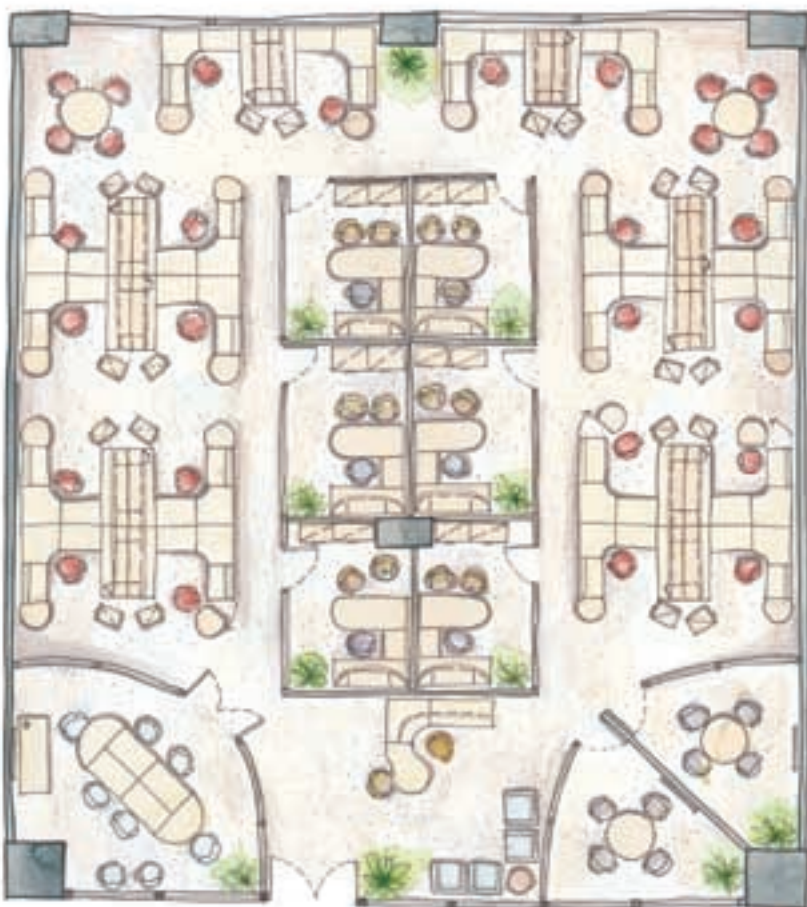

Cordovan Laminate with Tungston Evolv Worksurfaces and Cordovan PVC Softened Edge
Mix-it® Platinum Seating, Menswear Denim and Casino Sports Book

You're on a roll.

You're riding the crest of success. Now it's time to outfit another office. WaveWorks is a logical choice to express your individuality, giving you as many different possibilities as there are starfish in the sea. When you're ready to make bigger waves, it's easy to get on board.

Arranging a work space is more than just plugging numbers into a formula. Floors may be measured in square feet, but people move and work in circles. WaveWorks lets you think in contours that connect softly with people and, at the same time, fit smoothly within any architectural idea.

Autumn Laminate with Honey Worksurfaces and Autumn PVC Reed Edge
Mix-it® Seating, Sedona Indigo and Speedway Finish Line

When your plans come to life with Waveworks, reality invariably exceeds expectations. You'll find the proof of your decisions in the productivity all around you, and in the sweet taste of continued success.

Jump in and enjoy the ride.

Planning a larger office doesn't have to be a big headache. Waveworks makes it easy for you to customize as you visualize, so the leap from today to tomorrow is not only painless, but fun. (Some say it's downright invigorating.)

You could test the water with a setting here or a grouping there. But the best way to get your feet wet is to simply take the plunge. After all, Waveworks lets you make a really nice splash without having to shell out a lot of claws.

It's obvious. Realizing the ideal begins with having the right choices. And confidence in your own good taste. When the two come together, the results are stunning. Congratulations.

Isn't the view spectacular?

Developing a sophisticated office layout is like drawing up a little city. Beyond the challenge to fill a bigger space gracefully, designing for more people equates to satisfying more diversified needs.

WaveWorks is an intelligent accomplice for even your most complex plans. It easily meets the basics with durable laminates, yet offers those up the ladder the luxuriance of hardwood veneers—or the flexibility of natural and synthetic materials in combination. Here is everything you need to equip varied centers of productivity so they mesh beautifully in one vibrant environment.

Autumn Finish with Wood Reed Edge
Triumph™ Seating, Essence Papyrus

When you consider all that your organization has accomplished, it's only fitting you should enjoy the tasteful blending of form and purpose in your work space. An office endowed with Waveworks mirrors success. And that's a positive reflection on you.
